

VTLUUG Slush Fund Application

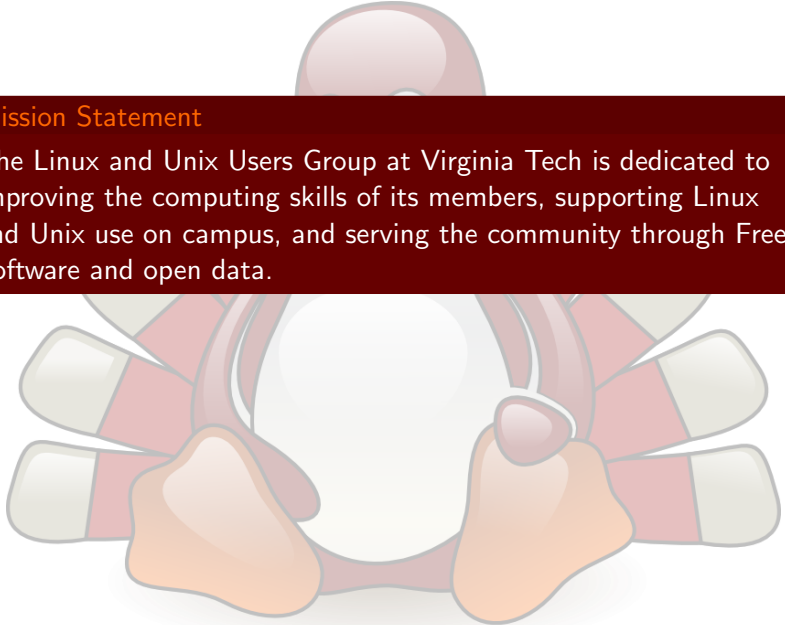

Linux and UNIX Users Group at Virginia Tech

October 4th, 2011

- 
- Who are we?
 - What do we do?
 - What is our operating budget?
 - What are we requesting?
 - What is / has been our SEC involvement?
 - What are our E-Week plans?

Mission Statement

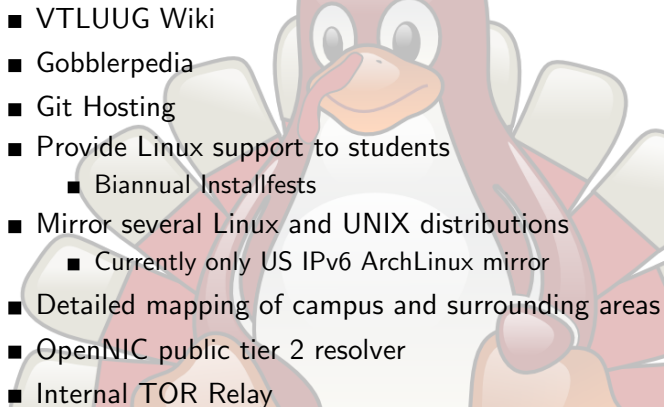

The Linux and Unix Users Group at Virginia Tech is dedicated to improving the computing skills of its members, supporting Linux and Unix use on campus, and serving the community through Free Software and open data.

Mission Statement

The Linux and Unix Users Group at Virginia Tech is dedicated to improving the computing skills of its members, supporting Linux and Unix use on campus, and serving the community through Free Software and open data.

- In continuous existence since 1997
- ~25 member weekly meetings
- ~40 member IRC channel
- ~250 member email listserv

- 
- VTLUUG Wiki
 - Gobblerpedia
 - Git Hosting
 - Provide Linux support to students
 - Biannual Installfests
 - Mirror several Linux and UNIX distributions
 - Currently only US IPv6 ArchLinux mirror
 - Detailed mapping of campus and surrounding areas
 - OpenNIC public tier 2 resolver
 - Internal TOR Relay

Linux and Unix Users Group at Virginia Tech F2010-S2011

2010	Fall		Existing funds (fall 2010)	120
